Consent For Ongoing Research Participation

You are invited to participate in ongoing research studies conducted by DNA Connexions. The purpose of this research is to further examine the connection between specimens and microbial flora, develop new research tests, and to statistically analyze the results of our tests at the population level.

Your participation will involve consenting to allow DNA Connexions to utilize any remaining sample after your contracted testing is complete. You will not be contacted if your results are utilized for potential future research studies.

Voluntary participation

Your participation in this research study is voluntary. You may choose not to participate and/or you may withdraw your consent to participate at any time. You will not be penalized in any way should you decide not to participate or to withdraw from this study. No discount or compensation will be offered by DNA Connexions for your participation.

Protection of confidentiality

All personal identifiers will be removed from your sample. The information gained from your sample may be used in public talks or written articles, but no information will be presented that identifies any individual. Once all personal identification is removed, the information might be used or released for other purposes without asking you.

Contact information

If you have any questions or concerns about your rights as a research participant this study or if any problems arise, please contact DNA Connexions at 888-843-5832.
